OFFICE OF SOLID WASTE AND EMERGENCY RESPONSE NOW THE OFFICE OF LAND AND EMERGENCY MANAGEMENT

Lic. Mariana Boy Tamborrell
General Deputy Director of Urban Environmental Promotion and Tourism
Undersecretary of Promotion and Environmental Regulation
Ejército Nacional Number 223
Col. Anáhuac, Del. Miguel Hidalgo
11320 Ciudad de México
MÉXICO

Dear Lic. Mariana Boy Tamborrell:

As called for under the 1999 U.S.-Mexico Consultative Mechanism for the Exchange of Information on New and Existing Facilities for the Management of Hazardous and Radioactive Waste, the Environmental Protection Agency (EPA) would like to share information on permitted hazardous waste treatment, storage, disposal and recycling facilities in the U.S. border area with your ministry. We would also like to acknowledge our agreement to share information on these facilities on an annual basis.

In addition to the sharing of information on hazardous waste treatment, storage, disposal and recycling facilities, members at the 2015 Border 2020 National Coordinators Meeting in El Paso, Texas agreed to share information on spent lead acid battery (SLABs) and electronics refurbisher and recycling facilities in the border area on an annual basis. The US has no SLAB facilities in the border region but we have enclosed an updated listing of the information for each hazardous waste treatment, storage, disposal and recycling facility and electronics recycling facility, as well as a map showing the location of each facility.

Since our last exchange of information through the Consultative Mechanism in August 2016, there have been no hazardous waste treatment, storage, and disposal facility changes. There have been nine electronics refurbisher and recycling facility changes. Table 1 highlights these changes.

Table 1. Changes in the status of U.S. Electronics Recycler and Refurbisher facilities along the Mexican border

Facility Name	Status / Change			
-	This facility closed or is no longer a registered ¹ .			
Friedman Recycling Company of El Paso	electronics recycler and refurbisher facility.			

1. Registered facilities are registered through a specific state program. This is a different than the certified facilities which have been accredited with meeting the voluntary R2 and e-Stewards certification standards.

Heritage Crystal Clean	This facility closed or is no longer a registered electronics recycler and refurbisher facility.		
Natural Soil Solutions LLC	This facility closed or is no longer a registered electronics recycler and refurbisher facility.		
New Green Organics Recycling Center	This facility closed or is no longer a registered electronics recycler and refurbisher facility.		
Reflective Recycling of Tulsa	This facility closed or is no longer a registered electronics recycler and refurbisher facility.		
Terra Firma Materials	This facility closed or is no longer a registered electronics recycler and refurbisher facility.		
Terra Firma Materials Pit	This facility closed or is no longer a registered electronics recycler and refurbisher facility.		
Fortune Plastic & Metal	This is a new electronics recycler and refurbisher facility.		

I appreciate the Secretaría de Medio Ambiente y Recursos Naturales' (SEMARNAT) continued cooperation in the implementation of the Consultative Mechanism, and look forward to receiving an update from you on Mexican border facilities.

If you have questions, please do not hesitate to contact Rick Picardi of my staff (<u>Picardi.Rick@epa.gov</u> / 703-308-8879).

Sincerely,

Barnes Johnson, Director

Office of Resource Conservation and Recovery
